"Excellence in Health Care Through Education"

## Program Description:

With the use of lecture and clinical case studies, this class will discuss the initial response and management of common medical emergencies seen in the acute care setting.

The class will cover the following content:

- Management of Respiratory Decline
- Acute Changes in Cardiac Function
- Mental status and Neurologic Changes
- Management of the Patient with GI Emergencies
- Early Recognition and Intervention for shock

**Cancellation Policy:** Registrations are accepted until class is filled. Registration assures placement, materials and notification if class is canceled. Registration is not complete until money is received along with the registration form. Written cancellation received two (2) weeks prior to the program date will result in a 50% refund. Cancellations received later than two weeks prior to the program, or failure to attend the program, are not refundable. Your responsibility is to notify staff development if you cannot attend. Substitutions are permitted.
