

12 Lead EKG's: Practical and Applicable

Friday, May 17, 2019

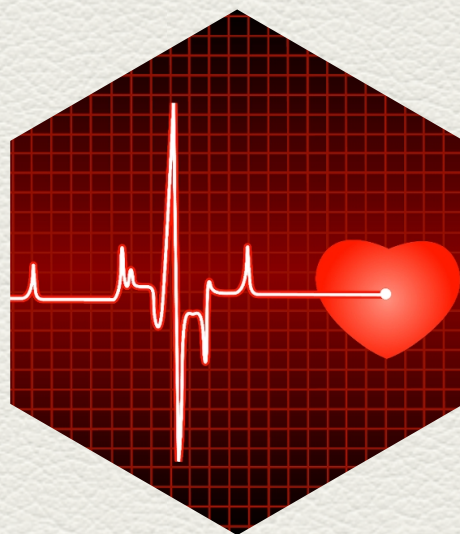

9:00am-4:30pm

**KershawHealth Medical Center
1315 Roberts Road
Camden, SC 29020**

**Judy Nichols, MSN, ACNP-BC,
CCRN-CMC**

Program Description: This program is designed to enhance the learner's understanding of 12 Lead EKG's and correlate this knowledge with clinical application. The class will combine lecture, class discussion, case studies and practice EKG's to cover the content below:

1. Describe cardiac electrical conduction as well as correlate the conduction with PR Interval and QRS measurements.
2. Correlate anterior, lateral, inferior and posterior MI's with related coronary artery and name one EKG change associated.
3. Compare and contrast ischemic changes versus injury/infarction changes on EKG.
4. Describe Wellen's Syndrome and the clinical significance of this finding.
5. Differentiate EKG changes indicative of an old MI from that of a recent MI.
6. Explain troponin.
7. Name 2 criteria in the identification of a Right Ventricular MI.
8. Describe the 18-Lead EKG as well as describe rationale for use.
9. Identify right and left Bundle Branch Block patterns.

Registration Fee: \$90

**Fee waived for Consortium members
when registered through Staff
Development Director**

**Participants must attend 90% of the program to
receive a certificate of attendance.
No partial credit will be given.**

**6.0 credit hours AHEC,
Respiratory Therapy and
SCNA**

**Target Audience:
Monitor Techs, Nurses and
Respiratory Therapists**

**Registration
Deadline
May 10, 2019**
